ACS - Air Charter Service Company History

ACS was founded in 1990 by Chris Leach. ACS started out as a small specialized aviation company committed to high standards of customer service.

ACS commitment to personal service and high quality offer proved popular and ensured a steady and rapid growth of the company, both in size and reputation.

ACS then furthered their commitment to providing exceptional and dedicated customer service by opening regional offices. These offices were established with the aim of meeting the charter requirements of existing customers and to extend ACS charter services to international clients.
